PROFILE

As a motivated Honours Business student at Hanze UAS Groningen, I thrive at using my academic strength, technological know-how, and multilingualism to have a big influence. I have a great background in customer service and exhibit great emotional intelligence, adaptability, and a dedication to quality. My involvement in a comprehensive AI mentoring program serves as more evidence of my commitment to continuous learning and the use of advanced technologies.

EXPERIENCE

Partnerships and Channel Development Intern - Aircall, Paris

January 2025 - July 2025

- Recruited and onboarded strategic Channel and Integration partners as part of the "Aircall Partner Collective," supporting expansion across DACH & BENELUX
- Enabled partners through training sessions, certification programs, and demo environments using Aircall's Learning Lab and partner tech stack.
- Collaborated cross-functionally with Sales, Customer Success, and Marketing to activate co-selling motions and align on GTM strategies

Gameday Operations Assistant (Volunteer), Paris Musketeers

European League of Football (ELF) | 2025 - present

- Supported the execution of gameday operations, including venue preparation, vendor coordination, and field setup to ensure seamless pre-game logistics.
- Assisted with managing access control, team logistics, and fan engagement activities during live games, ensuring a professional and smooth spectator experience.
- Coordinated post-game breakdown and debrief, including equipment inventory, media team assistance.
- Collaborated closely with team staff, security, and third-party partners to deliver efficient, high-energy gameday environments aligned with league expectations.

Business growth Strategist, mydoobe

2024

- Involved in planning mydoobe's pre launch campaign and analyzing its results to enhance marketing strategies.
- Identifying potential Investors and partners, coordinating meetings, and working towards securing investments.

Sustainable Housing Project Consultant, Ghana

The Pure Living Project | Sep. 2023 - Jan. 2024

- Focused on developing skills in project management, business strategy, and intercultural communication through high-level projects and additional lectures, seminars, and workshops.

EXTRACURRICULAR

GenAI & ChatGPT Mentoring

With a focus on societal effects, prompt engineering, improving organizational communication, problem-solving, coding, managing databases, and programming language models like ChatGPT, this course gave me an in-depth knowledge of AI. In addition, I acquired real-world expertise through mentor-led client projects.
